

Pasture Raised Pork Shares

Reserve your share now!

Greene Jungle Farm is pleased to offer pastured pork for sale, reserve now! The pork is all natural, antibiotic, hormone, and GMO-free. Our pigs will be harvested in February 2016 and are available as a whole or half pig. Our half a pig hangs at about 100 pounds. See our products page for a description of how we raise our pigs.

The price for a half or whole pig is \$5.00/lb based on the final hanging weight at the butcher after slaughter. This price includes the harvest fee, butchering fees, a standard cut /wrap, the costs of curing your ham, bacon, and hocks . These additional fees are about a third of the cost. Other farms charge a hanging weight and then add these fees later. We include them all together. However, if you have a special desire for processing other than the standard cuts and curing below, the price for your pig is **\$3.75/lb** plus your itemized additional third party fees. Please let us know when you reserve your share and we can help you place your order. A half pig is almost two cubic-feet of freezer space.

Cuts of meat in a standard cut and wrap for a 100 lb half pig. Actual amounts vary due to animal variability.
